Shared Savings and Losses

The amount of any Shared Savings or Shared Losses for any Performance Year:

2021 PY: Shared Losses of \$399,260.13

2022 PY: Shared Savings of \$195,863.30

The proportion of Shared Savings invested in infrastructure, redesigned care processes, and other resources necessary to improve outcomes and reduce Medicare costs for Beneficiaries: *\$0 distributed (Participant Providers contributed funds to support investment).*

The proportion of Shared Savings distributed to Participant Providers and Preferred Providers: *100%*

ACO Quality Measure Performance

See Table 1

Table 1
Global and Professional Direct Contracting Model
2022 Quarter 2 Claims-Based Quality Measures Report—Informational Only
Reporting Period: 07/01/2021–06/30/2022

DCE ID: D0162

DCE Type: High Needs Population

[Table of Contents](#)

Measure	Official Measure Set— Measure Name	Your DCE Quality Measure Score ¹	Mean Quality Measure Score ^{1,2}	30th Percentile Quality Performance Benchmark ³	90th Percentile Quality Performance Benchmark ³
ACR	Risk-Standardized, All-Condition Readmission (a lower (↓) score indicates better performance)	20.19	19.74	20.29	19.30
UAMCC	Risk-Standardized, All-Cause Unplanned Admissions for Patients with Multiple Chronic Conditions (per 100 person-years) (a lower (↓) score indicates better performance)	70.53	73.10	84.63	66.24
DAH	Days at Home for Patients with Complex, Chronic Conditions (a higher (↑) score indicates better performance)	308.37	305.90	N/A	N/A

Footnotes:

- 1 If no beneficiaries were eligible for this measure because of the measure's inclusion/exclusion criteria, a dash (—) will appear in the place of a quality measure score.
- 2 For High-Needs Population DCEs, the mean quality measure score for each measure is calculated across High-Needs Population DCEs only.
- 3 The Quality Performance Benchmarks displayed in this report are provisional and provided for information only. For further details about the calculation methodology, please refer to the PY2022 GPDC Model: Quality Measurement Methodology Report. These provisional values are calculated analogously to the final concurrent Quality Performance Benchmarks but are based on DCE and other group practice performance during the same rolling 12-month reporting period as the quarterly report. For the current quarterly report, the provisional quality performance benchmarks are based on the same reporting period of July 1, 2021, to June 30, 2022.
