**Table 1. Summary Information**

Measure	Official Measure Set—Measure Name	Your DCE's Quality Measure Score	P4P Percentile Rank <sup>1</sup>	P4P Component Quality Score <sup>2</sup>	P4R Component Quality Scores <sup>3,4</sup>	Total Quality Score
ACR	Risk-Standardized, All-Condition Readmission (a lower (↓) score indicates better performance)	19.66	86.1	100.00%	100.00%	100.00%
UAMCC	Risk-Standardized, All-Cause Unplanned Admissions for Patients with Multiple Chronic Conditions (per 100 person-years) (a lower (↓) score indicates better performance)	64.76	81.3			
DAH	Days at Home for Patients with Complex, Chronic Conditions (a higher (↑) score indicates better performance)	313.10	N/A	N/A		
CAHPS	Consumer Assessment of Healthcare Research and Quality ( a higher (↑) score indicates better performance)	N/A	N/A	N/A	100.00%	

**Footnotes:**

- In PY 2022, DCEs must meet the 30th percentile threshold on at least one of two claims-based measures (ACR or UAMCC) to receive the full 1% of the Quality Withhold tied to performance (P4P). A sliding scale is applied to DCEs that do not meet the 30th percentile threshold. Please refer to the PY 2022 Quality Measurement Methodology (QMMR) document for more details.
- DCEs can earn up to 100% of the 1/5 of the Quality Withhold percentage tied to P4P.
- In PY 2022, 4/5 of the 5% Quality Withhold (i.e., 4% of the financial benchmark) is tied to reporting (P4R). The 4/5 will be comprised of 2/5 connected to the claims-based quality measures and 2/5 connected to the CAHPS survey in PY 2022. See note 4 below.
- DCEs will automatically earn 100% of the 2/5 related to claims-based quality measure reporting (no action required by DCEs). DCEs may earn 100% of the 2/5 connected to CAHPS by authorizing a CMS-approved vendor to administer the CAHPS survey in PY 2022.
